Monday 30th November 2009 (6pm-9pm)

Introduction to Digital Dentistry: A Free Educational Event.

Malmaison Hotel
1 Swinegate
Leeds LS1 4AG

Contact Phil on 0113 2613421 / bdt@dsl.pipex.com

Benefits of attending this event – Patients are asking for more reliable cosmetic outcomes from their dental care. This evening event offers the opportunity for you to see the latest in digital dental technology with an introduction to digital impressioning and a demonstration of the new 3M™ ESPE™ Lava™ Crown and Bridge restorations. Also, receive a voucher for £30 off your next Lava restoration and qualify for 2 hours verifiable CPD.

CAD/CAM Excellence at Beever Dental Technology – The Substructure which underpins all crown and bridge work has to be accurately designed for strength and aesthetics. The Lava SCAN ST CAD/CAM system will be demonstrated to give you an understanding of the work you receive from Beever Dental Technology.

Introducing the Lava™ Chair side Oral Scanner from 3M ESPE™ - What if you could instantly capture a full arch and bite registration and immediately review the case chair side with your patient? What if you could wow your patients by eliminating one of the most unpleasant procedures in dentistry? Don't miss your chance to witness the amazing capabilities of the Lava™ chair side oral scanner, a truly unique technological breakthrough in capturing digital impressions.
